IDEAS TODAY
A BRIGHTER TOMORROW

*Who is Jio?

RELIANCE JIO BEGAN COMMERCIAL OPERATIONS IN 2016 WITH THE OBJECTIVE OF EXPANDING AFFORDABLE DIGITAL CONNECTIVITY ACROSS INDIA. IT HAS SINCE EXPANDED FROM A TELECOM OPERATOR INTO A BROADER DIGITAL PLATFORM COMBINING CONNECTIVITY, DEVICES, CLOUD, DIGITAL APPLICATIONS AND ENTERPRISE SERVICES.

AS OF 31 MARCH 2026, RELIANCE JIO INFOCOMM REPORTED:

- 524.4 MILLION CUSTOMERS
- 268.5 MILLION 5G CUSTOMERS
- 27.1 MILLION JioFIBER AND JioAIRFIBER SUBSCRIBERS
- 1 MILLION+ ROUTE-KM FIBRE NETWORK
- 360,382 NETWORK TOWERS
- 6,800+ PATENT APPLICATIONS GLOBALLY
- FY2026 REVENUE FROM OPERATIONS OF APPROXIMATELY ₹1.47 TRILLION
- FY2026 EBITDA OF APPROXIMATELY ₹763 BILLION

JIO THEREFORE ENTERS THE AI MARKET WITH SOMETHING MANY AI COMPANIES DO NOT HAVE:

- MASSIVE EXISTING DISTRIBUTION,
- CONNECTIVITY INFRASTRUCTURE,
- CONSUMER REACH
- DIGITAL-SERVICE RELATIONSHIPS.

*JIO'S EXISTING STRATEGIC POSITION

JIO IS NO LONGER POSITIONING ITSELF PURELY AS A TELECOM COMPANY. ITS CURRENT STRATEGY COMBINES:

CONNECTIVITY + DEVICES + CLOUD + DIGITAL SERVICES + DATA + AI

JIO DESCRIBES ITS PLATFORM AS SPANNING **NETWORK, DEVICES, OPERATING SYSTEMS AND DIGITAL APPLICATIONS**, WITH CONNECTIVITY ACTING AS THE FOUNDATION FOR ACCESS TO DIGITAL SERVICES AND EMERGING TECHNOLOGIES SUCH AS AI.

ITS ECOSYSTEM ALREADY COVERS AREAS SUCH AS:

- | | |
|-------------------|-----------------------|
| • CONNECTIVITY | • AGRICULTURE |
| • ENTERTAINMENT | • FINANCIAL SERVICES |
| • COMMERCE | • ENTERPRISE SERVICES |
| • EDUCATION | • CLOUD AND COMPUTING |
| • HEALTHCARE | • AI/ML |
| • IoT | |
| • SPEECH/NLP | |
| • COMPUTER VISION | |
| • EDGE COMPUTING | |

THIS IS IMPORTANT BECAUSE JIO IS NOT STARTING ITS AI STRATEGY FROM ZERO.

*WHY JIO IS ENTERING AI

JIO'S AI STRATEGY APPEARS TO BE BUILT AROUND SEVERAL EXISTING STRENGTHS.

3.1 MASSIVE DISTRIBUTION

JIO ALREADY SERVES MORE THAN **500 MILLION CUSTOMERS**, GIVING IT AN UNUSUALLY LARGE POTENTIAL DISTRIBUTION CHANNEL FOR AI PRODUCTS.

3.2 EXISTING DIGITAL ECOSYSTEM

JIO ALREADY OPERATES ACROSS MULTIPLE CONSUMER AND BUSINESS CATEGORIES. THIS GIVES IT POTENTIAL DOMAIN-SPECIFIC DATA, WORKFLOWS AND DISTRIBUTION CHANNELS.

3.3 NETWORK AND INFRASTRUCTURE

JIO CONTROLS SIGNIFICANT CONNECTIVITY, FIBRE, 5G AND EDGE INFRASTRUCTURE. ITS CURRENT AI STRATEGY IS INCREASINGLY CONNECTED TO **AI INFERENCE AT THE NETWORK/EDGE LEVEL**, RATHER THAN TREATING AI PURELY AS A STANDALONE APP.

3.4 EXISTING TECHNOLOGY PARTNERSHIPS

JIO HAS LONGSTANDING RELATIONSHIPS WITH MAJOR TECHNOLOGY COMPANIES INCLUDING GOOGLE, META AND MICROSOFT.

ITS CURRENT AI STRATEGY THEREFORE COMBINES:

JIO'S INFRASTRUCTURE + INDIAN DISTRIBUTION + GLOBAL TECHNOLOGY PARTNERSHIPS + INDIA-SPECIFIC AI DEVELOPMENT.

*JIO'S AI JOURNEY — FROM AI/ML TO GENERATIVE AND AGENTIC AI

JIO HAS ALREADY BEEN USING AI/ML INTERNALLY.

ITS ANNUAL REPORT DESCRIBES **JIOBRAIN** AS A COMPREHENSIVE AI/ML PLATFORM INTENDED TO PROVIDE AI CAPABILITIES TO ENTERPRISES ACROSS INDUSTRIES. JIO SAYS JIOBRAIN IS ALREADY BEING USED WITHIN AREAS SUCH AS:

- NETWORK PLANNING
- NETWORK MAINTENANCE
- RESOURCE OPTIMISATION
- CUSTOMER SERVICE

JIOBRAIN IS THEREFORE PRIMARILY AN **AI/ML TECHNOLOGY AND SERVICE PLATFORM.**

*WHAT ARE AI PRODUCTS ACTUALLY DOING IN INDIA?

THE CURRENT STATE OF THE INDIAN AI MARKET

AT THIS STAGE, WE SHOULD STOP BEFORE DISCUSSING JIO'S OPPORTUNITY.

USE CASE	EXAMPLES OF CURRENT OFFERINGS
INFORMATION & RESEARCH	CHATGPT, GEMINI, PERPLEXITY
EDUCATION & LEARNING	CHATGPT, GEMINI AND EDUCATION-FOCUSED AI TOOLS
WRITING & CONTENT	CHATGPT, GEMINI AND OTHER GENERATIVE AI PLATFORMS
CODING	CHATGPT, GEMINI, CLAUDE, SARVAM CODING TOOLS
AI SEARCH	GOOGLE AI MODE, PERPLEXITY
INDIAN-LANGUAGE INTERACTION	SARVAM, GEMINI AND OTHER INDIC-LANGUAGE SYSTEMS
SPEECH / VOICE	SARVAM AND CONVERSATIONAL-AI PLATFORMS
TRANSLATION	SARVAM AND OTHER TRANSLATION SYSTEMS
DOCUMENT PROCESSING	SARVAM VISION AND ENTERPRISE AI PLATFORMS
CUSTOMER SERVICE	HAPTIK, YELLOW.AI, COROVER AND ENTERPRISE PLATFORMS
BUSINESS WORKFLOWS	TCS, SARVAM AND ENTERPRISE AI PLATFORMS
AI AGENTS	INCREASINGLY OFFERED ACROSS MAJOR GLOBAL AND INDIAN PLATFORMS

THE FACTUAL PICTURE IS:

- **GLOBAL AI COMPANIES ARE ALREADY SERVING INDIAN USERS.**

CHATGPT, GEMINI, CLAUDE, PERPLEXITY AND OTHERS PROVIDE INCREASINGLY CAPABLE GENERAL -PURPOSE AI EXPERIENCES.

- **GLOBAL PLATFORMS ARE BECOMING MORE INDIA-AWARE.**

EXAMPLES INCLUDE INDIAN-LANGUAGE SUPPORT, AI SEARCH, VOICE, MULTIMODAL CAPABILITIES AND INDIA-SPECIFIC PRODUCT INITIATIVES.

- **INDIAN AI COMPANIES ARE BUILDING SPECIFICALLY FOR INDIA.**

SARVAM AND OTHER INDIAN COMPANIES ARE DEVELOPING MODELS, SPEECH SYSTEMS, TRANSLATION, AGENTS AND APPLICATIONS AROUND INDIAN LANGUAGES AND CONTEXTS.

- **AI IS MOVING BEYOND CHAT.**

THE MARKET IS INCREASINGLY EXPANDING TOWARD:

SEARCH → VOICE → DOCUMENTS → AGENTS → WORKFLOWS → ACTIONS

*INDIAN USER PROBLEMS — EVIDENCE-BASED ASSESSMENT

INDIA'S AI MARKET HAS ALREADY REACHED SUBSTANTIAL SCALE. IAMAI-KANTAR'S *INTERNET IN INDIA REPORT 2025* ESTIMATES **417 MILLION INDIAN INTERNET USERS HAD USED AI IN SOME FORM**, INCLUDING **201 MILLION URBAN AND 216 MILLION RURAL AI USERS**. AI USE IS ALREADY SPREAD ACROSS COMMERCE, CONTENT CREATION, INFORMATION SEARCH, CHATBOTS/VOICE, HEALTH/LIFESTYLE AND OFFICE WORK.

THIS MEANS THE QUESTION IS NO LONGER SIMPLY WHETHER INDIANS ARE USING AI. THE MORE RELEVANT QUESTION IS **WHAT PROBLEMS REMAIN UNRESOLVED ACROSS DIFFERENT USER SEGMENTS**.

1. STUDENTS

PROBLEM

- INDIAN STUDENTS ARE ALREADY HEAVY USERS OF AI FOR LEARNING, BUT THE AVAILABILITY OF INSTANT ANSWERS CREATES CHALLENGES AROUND LEARNING QUALITY, CRITICAL THINKING, AND STRUCTURED USE OF AI.
- AT THE SAME TIME, AI ADOPTION DOES NOT NECESSARILY MEAN AI PROFICIENCY. MANY STUDENTS MAY USE AI WITHOUT FULLY UNDERSTANDING HOW TO STRUCTURE EFFECTIVE, CONTEXT-RICH, AND ITERATIVE INTERACTIONS TO GET MORE VALUE FROM THESE TOOLS.

QUANTIFIED EVIDENCE

OPENAI REPORTS THAT **INDIA HAS THE LARGEST STUDENT POPULATION USING CHATGPT GLOBALLY**, WITH MILLIONS OF STUDENTS USING IT FOR HOMEWORK, EXAM PREPARATION AND EXPLORING IDEAS.

OPENAI ALSO IDENTIFIES A SPECIFIC CHALLENGE:

AI CAN PROVIDE ANSWERS INSTANTLY, CREATING A RISK THAT STUDENTS USE IT TO SHORTCUT LEARNING RATHER THAN DEEPEN UNDERSTANDING AND CRITICAL-THINKING SKILLS.

OPENAI'S INDIA RESEARCH FURTHER SHOWS THAT YOUNGER USERS ARE DISPROPORTIONATELY REPRESENTED IN CHATGPT USAGE:

- **18–24-YEAR-OLDS ACCOUNT FOR JUST UNDER HALF OF CHATGPT MESSAGES IN INDIA**
- **USERS AGED 18–34 ACCOUNT FOR APPROXIMATELY 80% OF CONSUMER CHATGPT MESSAGES IN INDIA.**

WHAT THE EVIDENCE ESTABLISHES

AI ADOPTION AMONG YOUNG INDIANS IS ALREADY SUBSTANTIAL. THE PROBLEM IS NOT ACCESS TO AI; IT IS HOW AI IS BEING USED WITHIN THE LEARNING PROCESS.

🔗 PRIMARY SOURCE

SOURCE: [OPENAI — LEARNING ACCELERATOR IN INDIA](#)

SOURCE: [OPENAI — HOW INDIA USES CHATGPT](#)

SOURCE: [STUDENTS' PROMPT PATTERNS AND ITS EFFECTS IN AI-ASSISTED ACADEMIC WRITING](#)

SOURCE: [KNOWLEDGE CENTRE | IAMAI](#)

2. WORKING PROFESSIONALS

PROBLEM

1. BCG — *THE GENAI ADOPTION CONUNDRUM* — INDIA, 2025

BCG FOUND THAT:

- **83% OF INDIAN DEVELOPERS ACKNOWLEDGED GENAI'S PRODUCTIVITY BENEFITS.**
- **BUT GENAI ADOPTION AMONG DEVELOPERS WAS ONLY 39%.**
- **GEN Z ADOPTION WAS EVEN LOWER AT 31%.**
- **INDIA FACED A 51% GAP BETWEEN DEMAND FOR GENAI/AI-SKILLED TALENT AND THE EXISTING TALENT BASE.**
- **BCG IDENTIFIED INEFFECTIVE MASS TRAINING, INTEGRATION CHALLENGES, CLIENT SKEPTICISM AND LACK OF SYSTEMATIC TRACKING AMONG THE BARRIERS TO ADOPTION.**

🔗 PRIMARY SOURCE

OFFICIAL BCG REPORT:

[BCG — THE GENAI ADOPTION CONUNDRUM](#)

DIRECT PDF:

[BCG — THE GENAI IMPERATIVE: RESHAPING INDIA'S IT LANDSCAPE \(PDF\)](#)

2. BCG — AI AT WORK 2025: MOMENTUM BUILDS, BUT GAPS REMAIN

THIS ONE IS GLOBAL RATHER THAN INDIA-ONLY, BUT IT GIVES EXCELLENT EVIDENCE FOR THE “AI ADOPTION ≠ AI PROFICIENCY” ARGUMENT.

ACROSS 10,600+ WORKERS IN 11 COUNTRIES:

- 72% WERE REGULAR AI USERS.
- ONLY 36% FELT ADEQUATELY TRAINED IN AI.
- REGULAR AI USE AMONG FRONTLINE EMPLOYEES WAS ONLY 51%.
- ONLY 13% SAID AI AGENTS WERE BROADLY INTEGRATED INTO THEIR WORKFLOWS.
- ONLY ABOUT ONE-THIRD UNDERSTOOD HOW AI AGENTS FUNCTION.

IMPORTANTLY, BCG FOUND THAT EMPLOYEES RECEIVING 5+ HOURS OF AI TRAINING WERE SUBSTANTIALLY MORE LIKELY TO BECOME REGULAR USERS.

🔗 PRIMARY SOURCE

:[BCG — AI AT WORK 2025: MOMENTUM BUILDS, BUT GAPS REMAIN](#)

3. MERCHANTS / MSMEs

PROBLEM

- INDIAN MSMEs RECOGNIZE THE POTENTIAL OF AI, BUT MANY STILL FACE A PRACTICAL ADOPTION GAP. AMONG TECH-ENABLED INDIAN MSMEs SURVEYED BY NASSCOM AND META, 87% EXPRESSED CONFIDENCE THAT AI CAN IMPROVE PRODUCTIVITY AND 94% ACKNOWLEDGED ITS POTENTIAL TO DRIVE BUSINESS GROWTH. HOWEVER, 65% WERE UNAWARE OF THE RIGHT TOOLS AND RESOURCES TO LEVERAGE AI, 59% CITED BUDGET CONSTRAINTS, AND 91% SAID AI TECHNOLOGY WAS NOT WIDELY ACCESSIBLE AND AFFORDABLE.

THE CHALLENGE IS THEREFORE NOT SIMPLY A LACK OF INTEREST IN AI, BUT A GAP BETWEEN BELIEVING IN AI'S VALUE AND KNOWING HOW TO APPLY IT TO THE BUSINESS. THE SAME NASSCOM–META RESEARCH FOUND THAT 72% EMPHASIZED THE NEED FOR AI TRAINING/UPSKILLING, WHILE 45% HIGHLIGHTED THE NEED FOR INDUSTRY-SPECIFIC USE CASES DEMONSTRATING HOW AI COULD BENEFIT THEIR BUSINESSES.

FINDING	WHAT IT INDICATES
87% BELIEVE AI CAN IMPROVE PRODUCTIVITY	STRONG PERCEIVED VALUE
94% BELIEVE AI CAN DRIVE BUSINESS GROWTH	STRONG BUSINESS INTEREST
65% ARE UNAWARE OF THE RIGHT TOOLS/RESOURCES	AI KNOWLEDGE/RESOURCE GAP
59% CITE BUDGET CONSTRAINTS	AFFORDABILITY BARRIER
91% DON'T FEEL AI TECHNOLOGY IS WIDELY ACCESSIBLE/AFFORDABLE	ACCESSIBILITY BARRIER
72% EMPHASIZE AI TRAINING/UPSKILLING	SKILLS/CAPABILITY GAP
45% WANT INDUSTRY-SPECIFIC USE CASES	DIFFICULTY TRANSLATING AI INTO PRACTICAL BUSINESS APPLICATIONS

THESE FIGURES COME FROM THE NASSCOM–META WHITEPAPER “EMPOWERING INDIA’S GROWTH: UNLOCK AI’S POTENTIAL FOR TECH-ENABLED MSMEs.”

- LOCAL QUALITATIVE OBSERVATION: CONVERSATIONS WITH LOCAL BUSINESS OWNERS SUGGESTED THAT SOME SMALL-BUSINESS OWNERS DO NOT SEE AI AS RELEVANT TO THEIR BUSINESSES. A COMMON PERCEPTION WAS THAT “AI IS FOR LARGE BUSINESSES,” BECAUSE THEY DO NOT IMMEDIATELY SEE HOW AI CAN PROVIDE VALUE IN A SMALL-BUSINESS CONTEXT.

🔗 PRIMARY SOURCE

NASSCOM × META — EMPOWERING INDIA’S GROWTH: UNLOCK AI’S POTENTIAL FOR TECH-ENABLED MSMEs

SOURCE: [DOWNLOAD THE FULL NASSCOM–META REPORT \(PDF\)](#)

4. CREATORS

PROBLEM

FINDING	WHAT IT INDICATES
2–2.5M MONETIZED CREATORS	LARGE AND INCREASINGLY PROFESSIONAL CREATOR ECOSYSTEM
\$350–400B CONSUMER SPENDING INFLUENCED	SIGNIFICANT ECONOMIC INFLUENCE
\$1T+ PROJECTED CREATOR-INFLUENCED CONSUMPTION BY 2030	RAPIDLY EXPANDING OPPORTUNITY
74% OF BRANDS HIGHLIGHT FAKE FOLLOWERS	DIFFICULTY ASSESSING GENUINE AUDIENCE INFLUENCE
40% CITE LACK OF MEASURABLE ROI	DIFFICULTY CONNECTING CREATOR ACTIVITY TO BUSINESS OUTCOMES

38% CITE BRAND RISK	CONCERNS AROUND CREATOR/BRAND REPUTATION
22% CITE TARGET-GROUP MISALIGNMENT	DIFFICULTY FINDING THE RIGHT CREATOR FOR THE INTENDED AUDIENCE

PRIMARY BCG SOURCES

1. BCG — FROM CONTENT TO COMMERCE: MAPPING INDIA'S CREATOR ECONOMY (2025)

THIS IS THE PRIMARY REPORT USED FOR THE CREATOR-ECONOMY ANALYSIS.

[BCG — FROM CONTENT TO COMMERCE: MAPPING INDIA'S CREATOR ECONOMY](#)

2. BCG — REPORT PDF

THE DETAILED PDF CONTAINS THE QUANTITATIVE CHALLENGE DATA, INCLUDING THE **74% FAKE FOLLOWERS**, **40% ROI**, AND **38% BRAND-RISK FINDINGS**.

[BCG — CREATOR ECONOMY REPORT PDF](#)

LOCAL QUALITATIVE OBSERVATION: CONVERSATIONS WITH LOCAL CREATORS SUGGESTED THAT MANY SMALL/EMERGING CREATORS STRUGGLE WITH CONTENT DECISIONS — PARTICULARLY WHAT TYPE OF CONTENT TO CREATE, WHEN TO POST, AND HOW TO IDENTIFY THE RIGHT TIME AND FORMAT FOR THEIR TARGET AUDIENCE. THIS CAN MAKE CONTENT CREATION MORE TRIAL-AND-ERROR DRIVEN, ESPECIALLY FOR CREATORS WITHOUT DEDICATED ANALYTICS OR MARKETING SUPPORT.

5. FARMERS

PROBLEM

- INDIAN FARMERS SHOW STRONG WILLINGNESS TO ACT ON AGRICULTURAL ADVICE, BUT ACCESS TO TIMELY AND RELEVANT TECHNICAL INFORMATION REMAINS A SIGNIFICANT GAP. ACCORDING TO THE GOVERNMENT OF **INDIA'S NSS 77TH ROUND SITUATION ASSESSMENT OF AGRICULTURAL HOUSEHOLDS**, ONLY **48.7%** OF AGRICULTURAL HOUSEHOLDS ACCESSED TECHNICAL ADVICE DURING JULY–DECEMBER **2018**, FALLING TO **42.2%** DURING JANUARY–JUNE 2019. HOWEVER, AMONG HOUSEHOLDS THAT ACCESSED TECHNICAL ADVICE, **89.8%** AND **89.5%** RESPECTIVELY ADOPTED THE ADVICE.
- THE GAP IS PARTICULARLY VISIBLE IN DIGITAL ACCESS TO AGRICULTURAL INFORMATION. **SMARTPHONE-APP-BASED INFORMATION** ACCOUNTED FOR ONLY **1.2%** OF AGRICULTURAL HOUSEHOLDS ACCESSING TECHNICAL ADVICE DURING **JULY–DECEMBER 2018**, ALTHOUGH **75.5%** OF THOSE WHO ACCESSED ADVICE THROUGH SMARTPHONE APPS REPORTED ADOPTING IT. THIS SUGGESTS THAT THE CHALLENGE IS NOT SIMPLY WILLINGNESS TO USE ADVICE, BUT ACCESS TO RELEVANT INFORMATION THROUGH CHANNELS FARMERS CAN ACTUALLY USE.
- LOCAL CONVERSATIONS ALSO INDICATED THAT FARMERS MAY FIND DIGITAL AGRICULTURAL INFORMATION LESS USEFUL WHEN IT IS NOT PRESENTED IN A FAMILIAR LANGUAGE OR IN A SIMPLE, PRACTICAL FORMAT.

THE NUMBERS ARE VERY POWERFUL

FINDING	WHAT IT TELLS US
48.7% ACCESSED TECHNICAL ADVICE IN JUL–DEC 2018	LESS THAN HALF REACHED TECHNICAL ADVISORY SOURCES
42.2% ACCESSED IT IN JAN–JUN 2019	ACCESS REMAINED LIMITED
89.8% ADOPTED ADVICE AFTER ACCESSING IT	FARMERS DEMONSTRATED HIGH WILLINGNESS TO ACT
89.5% ADOPTED ADVICE IN JAN–JUN 2019	ADOPTION REMAINED HIGH
ONLY 1.2% ACCESSED ADVICE THROUGH SMARTPHONE APPS	DIGITAL AGRICULTURAL ADVISORY PENETRATION WAS VERY LOW
75.5% ADOPTED ADVICE AMONG SMARTPHONE-APP USERS	THOSE WHO DID ACCESS APP-BASED ADVICE SHOWED SUBSTANTIAL ADOPTION

PRIMARY SOURCE: GOVERNMENT OF INDIA, MOSPI, NSS REPORT NO. 587 — SITUATION ASSESSMENT OF AGRICULTURAL HOUSEHOLDS AND LAND AND LIVESTOCK HOLDINGS OF HOUSEHOLDS IN RURAL INDIA, 2019.

SOURCES: [MOSPI — NSS REPORT NO. 587](#)

6. HEALTHCARE

PROBLEM

FINDING	WHAT IT INDICATES
78% USE GENAI TO UNDERSTAND DIAGNOSES/TREATMENT	CONSUMERS ARE ALREADY TURNING TO AI FOR HEALTH INFORMATION
73% USE GENAI TO PREPARE FOR APPOINTMENTS	AI IS ENTERING THE PRE-CONSULTATION JOURNEY
72% USE GENAI TO NAVIGATE HEALTHCARE SERVICES	AI IS BEING USED BEYOND SIMPLE INFORMATION SEARCH
>45% STRUGGLE TO UNDERSTAND/ACCESS HEALTHCARE SERVICES	HEALTHCARE REMAINS DIFFICULT TO NAVIGATE

62% CONSULT MULTIPLE PROVIDERS BEFORE THE CORRECT DIAGNOSIS/TREATMENT PLAN	FRAGMENTATION IN THE HEALTHCARE JOURNEY
93% PREFER A SINGLE POINT OF CONTACT	STRONG DEMAND FOR COORDINATED CARE
88% WANT HEALTHCARE TO BE MORE CONVENIENT	CONVENIENCE IS A MAJOR CONSUMER EXPECTATION
43% IDENTIFY HIGH TREATMENT COSTS AS A TOP ISSUE	AFFORDABILITY REMAINS A BARRIER
42% IDENTIFY LONG WAITING TIMES	ACCESS/TIME REMAINS A BARRIER
30% IDENTIFY APPOINTMENT DELAYS	FRICTION EXISTS IN ACCESSING CARE

PRIMARY SOURCE

BAIN & COMPANY — INDIA AMONG ASIA-PACIFIC'S MOST AI-READY HEALTHCARE MARKETS

[BAIN HEALTHCARE STUDY — INDIA & AI ADOPTION](#)

- WHO'S RESEARCH ON DIGITAL HEALTH IN INDIA SHOWS A BROADER ACCESS PROBLEM. MORE THAN **65% OF INDIA'S POPULATION LIVES IN RURAL AREAS**, WHILE MORE THAN **75% OF HEALTH WORKERS AND OVER 60% OF HEALTH FACILITIES ARE BASED IN URBAN AREAS**, CREATING AN URBAN–RURAL DISTRIBUTION CHALLENGE.

WHO ALSO DOCUMENTS HOW TELEMEDICINE AND DIGITAL TOOLS HAVE BEEN USED TO EXTEND PRIMARY HEALTHCARE TO HARD-TO-REACH POPULATIONS. IN ONE INDIA EXAMPLE, DIGITAL/TELEMEDICINE INTERVENTIONS REDUCED THE DISTANCE PATIENTS TRAVELLED FOR PRIMARY CARE BY **70%** AND AVERAGE PATIENT COSTS BY **60%**.

[WHO — GOING DIGITAL FOR HEALTH IN INDIA](#)

THE HEALTHCARE EVIDENCE THEREFORE HAS TWO DIMENSIONS:

- CONSUMER SIDE**
AI IS ALREADY BEING USED → **78%, 73%, 72%**
- HEALTHCARE-SYSTEM SIDE**
ACCESS REMAINS UNEVEN → RURAL/URBAN DISTRIBUTION AND FRAGMENTED PATHWAYS

7. GENERAL USERS — THE PROBLEM

PROBLEM	WHAT IT MEANS FOR THE USER
1. AWARENESS & FAMILIARITY GAP	AI IS BECOMING WIDESPREAD, BUT A SIGNIFICANT PORTION OF USERS STILL DO NOT KNOW HOW OR WHERE AI CAN HELP THEM IN EVERYDAY LIFE.
2. EASE-OF-INTERACTION GAP	USERS SHOULD NOT NEED TO UNDERSTAND PROMPTING TECHNIQUES OR FORMULATE PERFECTLY STRUCTURED QUESTIONS TO GET USEFUL ASSISTANCE.
3. LANGUAGE & CONTEXT GAP	INDIA'S USERS COMMUNICATE ACROSS REGIONAL LANGUAGES, HINGLISH, VOICE AND CULTURALLY SPECIFIC CONTEXTS. AI NEEDS TO UNDERSTAND THE WAY PEOPLE NATURALLY COMMUNICATE.
4. QUESTION → OUTCOME GAP	USERS OFTEN NEED HELP ACCOMPLISHING SOMETHING — PLANNING A TRIP, UNDERSTANDING A DOCUMENT, MANAGING A BUDGET, LEARNING SOMETHING, MAKING A DECISION — RATHER THAN SIMPLY RECEIVING AN INFORMATIONAL ANSWER.

PRIMARY SOURCE

- IAMAI-KANTAR — INTERNET IN INDIA REPORT 2025**
COVERS INDIA'S INTERNET-USER BASE AND AI ADOPTION, INCLUDING THE **958M ACTIVE INTERNET USERS** FIGURE.
[IAMAI-KANTAR: INTERNET IN INDIA 2025](#)
- GOOGLE-KANTAR — 75% OF INDIANS DESIRE A DAILY GROWTH COLLABORATOR**
THIS STUDY PROVIDES ADDITIONAL EVIDENCE FOR THE PROBLEM STATEMENT. THE STUDY SURVEYED **8,000+ PEOPLE ACROSS 18 INDIAN CITIES** AND FOUND THAT **60% WERE NOT FAMILIAR WITH AI AND ONLY 31% HAD TRIED A GENERATIVE-AI TOOL**. IT ALSO DOCUMENTS DEMAND FOR AI TO HELP WITH PRODUCTIVITY, CREATIVITY AND EVERYDAY CHALLENGES.
[GOOGLE-KANTAR INDIA AI STUDY](#)
- OPENAI — HOW INDIA USES CHATGPT**
USEFUL FOR ESTABLISHING THAT AI USE IN INDIA IS NOT LIMITED TO PROFESSIONAL WORK: **NEARLY TWO-THIRDS OF CONSUMER CHATGPT MESSAGES IN INDIA WERE NON-WORK RELATED** IN THE STUDY PERIOD.
[OPENAI — HOW INDIA USES CHATGPT](#)

*FROM USER PROBLEMS TO JIO AI SOLUTIONS

JIO'S OPPORTUNITY IS NOT TO REPLACE EXISTING DIGITAL SERVICES, BUT TO CONNECT THEM THROUGH AN INDIA-FIRST AI LAYER THAT UNDERSTANDS USERS' LANGUAGE, CONTEXT AND INTENT — TURNING AI ACCESS INTO PRACTICAL OUTCOMES

USER SEGMENT	KEY PROBLEM	JIO AI SOLUTION
 GENERAL USERS	AI CAN BE DIFFICULT TO USE EFFECTIVELY ACROSS LANGUAGES, CONTEXTS AND EVERYDAY NEEDS.	JIOBHARATIQ — AN INDIA-FIRST AI COMPANION DESIGNED TO MAKE AI EASY, MULTILINGUAL AND USEFUL FOR EVERYDAY TASKS.
 STUDENTS	STUDENTS INCREASINGLY USE AI FOR LEARNING, BUT NEED MORE PERSONALIZED AND STRUCTURED LEARNING SUPPORT.	JIOLEARNIQ — PERSONALIZED LEARNING IN THE USER'S LANGUAGE AND AT THEIR OWN PACE.
 PROFESSIONALS	AI ADOPTION CAN REMAIN DISCONNECTED FROM ACTUAL WORKPLACE WORKFLOWS AND BUSINESS CONTEXT.	PROPOSED: JIO WORKIQ — CONNECT AI WITH AUTHORIZED WORK DATA, ANALYSIS AND WORKFLOWS.
 MERCHANTS / MSMEs	MANY SMALL BUSINESSES NEED PRACTICAL, AFFORDABLE AND EASY-TO-USE AI FOR BUSINESS DECISIONS.	AI VYAPAR — HELP MERCHANTS IMPROVE PRODUCTIVITY, SERVE CUSTOMERS AND MAKE BETTER BUSINESS DECISIONS.
 CREATORS	CREATORS NEED TO CONNECT CONTENT DECISIONS WITH AUDIENCE ENGAGEMENT, PERFORMANCE AND MONETIZATION.	PROPOSED: JIO CREATORIQ — AI SUPPORT ACROSS CONTENT, AUDIENCE INSIGHTS AND CREATOR GROWTH.
 FARMERS	AGRICULTURAL INFORMATION CAN BE DIFFICULT TO ACCESS, INTERPRET AND TURN INTO PRACTICAL DECISIONS.	JIOKRISHIQ — AI SUPPORT FOR CROPS, WEATHER, RESOURCES AND INCOME, BUILDING ON JIO'S AGRICULTURAL CAPABILITIES.
 HEALTHCARE	USERS OFTEN NEED HELP UNDERSTANDING AND NAVIGATING FRAGMENTED HEALTHCARE INFORMATION AND SERVICES.	JIOHEALTHIQ — INTELLIGENT HEALTHCARE SUPPORT, WITH APPROPRIATE PROFESSIONAL OVERSIGHT.

THE FIVE NAMED PRODUCTS **JIOBHARATIQ**, **AI VYAPAR**, **JIOHEALTHIQ**, **JIOLEARNIQ** AND **JIOKRISHIQ** ARE EXPLICITLY IDENTIFIED BY RELIANCE AS INDIA-FIRST AI APPLICATIONS. THE **PROPOSED** ONES ARE NOT EXISTING.

HOW IT CONNECT WITH USERS

IN JIOBHARATIQ — GENERAL USERS

- UNDERSTANDS EVERYDAY REQUESTS THROUGH A SIMPLE, CONVERSATIONAL INTERFACE SO USERS DO NOT NEED ADVANCED AI OR PROMPTING SKILLS.
- HELPS WITH PRACTICAL DAY-TO-DAY NEEDS — FROM 'VAI YE LIGHT KY NAHI JAL RAHI' TO 'YE MUTTON BIRIYANI KA RECIPE KYA HAIN'.
- RESPONDS NATURALLY TO INDIAN LANGUAGES, VOICE AND LOCAL CONTEXT.

JIOKRISHIQ — FARMERS

- CONNECTS WITH FARMERS THROUGH THEIR REGIONAL LANGUAGE AND FAMILIAR COMMUNICATION STYLES.
- UNDERSTANDS LOCAL CONTEXT — INCLUDING CROPS, WEATHER, RESOURCES AND AFFORDABILITY OF AN INDIAN FARMER — TO PROVIDE PRACTICAL RECOMMENDATIONS.
- USES MARKET AND AGRICULTURAL INFORMATION TO SUPPORT DECISIONS ON WHAT AND WHEN TO GROW.

RELIANCE OFFICIALLY DESCRIBES JIOKRISHIQ AS HELPING FARMERS MAKE BETTER DECISIONS ON **CROPS, WEATHER, RESOURCES AND INCOME**.

JIOLEARNIQ — STUDENTS

- ADAPTS LEARNING TO THE STUDENT'S LANGUAGE, LEVEL AND PREFERRED WAY OF LEARNING.
- UNDERSTANDS THE INDIAN EDUCATION CONTEXT AND REDUCES THE NEED FOR COMPLEX PROMPTING MITIGATING THE GAP BETWEEN A PROMPT AND REQUIRED OUTCOME.
- FOCUSES ON THE STUDENT'S DESIRED LEARNING OUTCOME, RATHER THAN SIMPLY PROVIDING AN ANSWER.

RELIANCE SPECIFICALLY DESCRIBES JIOLEARNIQ AS HELPING STUDENTS LEARN **IN THEIR OWN LANGUAGE, AT THEIR OWN PACE AND WITH CONFIDENCE**.

JIOHEALTHIQ — HEALTHCARE

- HELPS USERS UNDERSTAND PRESCRIPTIONS, MEDICAL INFORMATION AND THEIR NEXT STEPS IN SIMPLER LANGUAGE.

- CONNECTS USERS WITH RELEVANT HEALTHCARE SERVICES, DOCTORS AND SUPPORTING INFORMATION AND HELP THEM TO FIND THE REQUIRED MEDICINE IN REASONABLE PRICE .
- KEEPS QUALIFIED HEALTHCARE PROFESSIONALS INVOLVED WHERE CLINICAL JUDGEMENT IS REQUIRED .

RELIANCE DESCRIBES JIOHEALTHIQ AS BRINGING **INTELLIGENT HEALTHCARE SUPPORT CLOSER TO EVERY FAMILY** .

Jio WorkIQ — PROFESSIONALS

- UNDERSTANDS THE USER'S WORK CONTEXT AND HELPS WITH ANALYSIS, REPORTING, SUMMARIES AND ROUTINE TASKS.
- REDUCES THE GAP BETWEEN A USER'S NATURAL REQUEST AND THE DESIRED WORKPLACE OUTCOME .
- SUPPORTS REGIONAL-LANGUAGE AND CONVERSATIONAL INTERACTION WHERE USEFUL .

AI VYAPAR — MERCHANTS

- ACTS LIKE A 24×7 BUSINESS ASSISTANT, HELPING MERCHANTS WITH EVERYDAY BUSINESS DECISIONS.
- UNDERSTANDS BUSINESS CONTEXT — SUCH AS SALES, INVENTORY AND CUSTOMER NEEDS — THROUGH SIMPLE NATURAL-LANGUAGE REQUESTS.
- ALSO CAN UNDERSTAND THE LOCAL INDIAN MERCHANT'S ACCENT 'VAI AJ MAL KITNEKA BECHA','AJ CINTU KAM PE NAHI AYA SALARY KAT USKA'
- USES MARKET AND BUSINESS INSIGHTS TO RECOMMEND ACTIONS THAT CAN IMPROVE PRODUCTIVITY AND GROWTH .

Jio CreatorIQ — CREATORS (PROPOSED)

- UNDERSTANDS THE CREATOR'S CONTENT, AUDIENCE AND PERFORMANCE TO HELP IDENTIFY WHAT TO CREATE AND HOW TO IMPROVE .
- CONNECTS CONTENT DECISIONS WITH AUDIENCE ENGAGEMENT, TRENDS AND MONETIZATION OPPORTUNITIES.
- ACTS AS A DATA-DRIVEN CREATIVE AND GROWTH PARTNER RATHER THAN ONLY A CONTENT GENERATOR.

UI OF Jio IQ

*How JIO CAN DRIVE ADOPTION

1. BUILD A STANDALONE AI-FIRST PRODUCT

Jio IQ — BHARAT KA APNA AI

- LAUNCH Jio IQ AS A **STANDALONE APP** CONTAINING ALL SPECIALIZED AI EXPERIENCES.
- USE THE WIDER Jio ECOSYSTEM — **SIM, DEVICES, MyJio, JioFiber AND RETAIL** — AS DISTRIBUTION AND ACQUISITION CHANNELS.

THIS IS ALSO CONSISTENT WITH JIO'S EXISTING APPROACH OF USING ITS ECOSYSTEM TO DISTRIBUTE AI SERVICES; FOR EXAMPLE, JIO CURRENTLY DISTRIBUTES GOOGLE AI PRO THROUGH ELIGIBLE JIO PLANS.

2. GIVE USERS A REASON TO TRY IT

REDUCE THE BARRIER TO FIRST USE

- FREE INTRODUCTORY ACCESS / USAGE ALLOWANCE TO EXPERIENCE Jio IQ.
- BUNDLE Jio IQ WITH **SELECTED MOBILE, BROADBAND AND DEVICE PLANS**.
- USE SIMPLE ONBOARDING: "TELL Jio IQ WHAT YOU WANT TO DO."

JIO ALREADY USES THIS TYPE OF AI BUNDLING STRATEGY WITH ITS GOOGLE GEMINI OFFER, WHICH PROVIDES ELIGIBLE JIO USERS ACCESS TO GOOGLE AI PRO FOR A PROMOTIONAL PERIOD.

3. PROMOTE AI THROUGH REAL-LIFE PROBLEMS

INSTEAD OF ADVERTISING "JIO HAS POWERFUL AI", DEMONSTRATE WHAT IT CAN ACTUALLY DO.

SHOW THE PROBLEM → SHOW THE SOLUTION

"Bhai, ye cycle kaise thik kare?"
 "Ye dhandha kyun down hai?"
 "Aaj ka weather kya hai?"
 "Bhai, ye chapter samjha de."

4. SEGMENT THE COMMUNICATION

18-30: → YOUTUBERS, CREATORS, DIGITAL CAMPAIGNS AND POPULAR ENTERTAINMENT PERSONALITIES.

30-50: → TRUSTED, FAMILIAR PUBLIC FIGURES + PRACTICAL DEMONSTRATIONS.

OLDER / LESS DIGITALLY FAMILIAR USERS: → REGIONAL TV, RADIO, LOCAL DEMONSTRATIONS AND VOICE-FIRST MESSAGING.

THE CORE MESSAGE:

"AI SAMAJHNE KI ZARURAT NAHI — BAS BATAO KYA KARNA HAI."

THIS FITS RELIANCE'S STATED OBJECTIVE OF MAKING AI EASY TO USE, TRUSTED AND AFFORDABLE, AND AVAILABLE IN INDIAN LANGUAGES.

5. DIFFERENT AI → DIFFERENT TRUST & ADOPTION STRATEGY

DIFFERENT AI EXPERIENCES REQUIRE DIFFERENT TRUST AND ADOPTION STRATEGIES.

 **JioKrishiIQ** +  **JioHealthIQ**

POSITION AROUND TRUST

JioKrishiIQ

- RUN REAL-WORLD PILOT PROGRAMS WITH FARMERS.
- DEMONSTRATE RECOMMENDATIONS AND VALIDATE RESULTS WITH AGRICULTURAL EXPERTS.
- USE SUCCESSFUL CASE STUDIES TO BUILD FARMER CONFIDENCE.

JioHealthIQ

- PARTNER WITH HOSPITALS, HEALTHCARE NETWORKS AND QUALIFIED PROFESSIONALS TO STRENGTHEN CREDIBILITY.
- DEMONSTRATE PRACTICAL USE CASES SUCH AS UNDERSTANDING PRESCRIPTIONS AND NAVIGATING HEALTHCARE SERVICES.
- CLEARLY COMMUNICATE WHERE PROFESSIONAL MEDICAL JUDGEMENT REMAINS NECESSARY.

RELIANCE ITSELF POSITIONS JioKrishiIQ AROUND DECISIONS INVOLVING CROPS, WEATHER, RESOURCES AND INCOME, WHILE JioHealthIQ IS INTENDED TO BRING INTELLIGENT HEALTHCARE SUPPORT CLOSER TO FAMILIES.

FOR HIGH-STAKES AI: DEMONSTRATE → VALIDATE → BUILD TRUST → SCALE

 **JioLearnIQ**

POSITION AROUND EASE OF LEARNING

- PARTNER WITH EDUCATIONAL INSTITUTIONS AND LEARNING PLATFORMS TO INTRODUCE AI-ASSISTED LEARNING.
- USE STUDENT AMBASSADORS, CAMPUS CAMPAIGNS AND CREATOR-LED DEMONSTRATIONS.
- SHOW HOW STUDENTS CAN SIMPLY ASK IN THEIR OWN LANGUAGE INSTEAD OF LEARNING PROMPTING TECHNIQUES.

RELIANCE SPECIFICALLY DESCRIBES JioLearnIQ AS HELPING STUDENTS LEARN IN THEIR OWN LANGUAGE AND AT THEIR OWN PACE.

AI VYAPAR

POSITION AROUND BUSINESS GROWTH

- USE JIO'S EXISTING MERCHANT/BUSINESS ECOSYSTEM TO DEMONSTRATE AI IN REAL SHOPS.
- SHOW MERCHANTS PRACTICAL USE CASES: SALES ANALYSIS, INVENTORY, CUSTOMER BEHAVIOUR AND BUSINESS RECOMMENDATIONS.
- INTRODUCE A VOICE-ENABLED MERCHANT DEVICE AS A POTENTIAL FUTURE EXTENSION — SIMILAR IN CONCEPT TO A MERCHANT-FACING VOICE/PAYMENT DEVICE, BUT FOCUSED ON AI ASSISTANCE.

THIS IS A PROPOSED INNOVATION AND SHOULD BE TREATED AS A FUTURE PRODUCT EXTENSION

RELIANCE OFFICIALLY POSITIONS AI VYAPAR AROUND HELPING SMALL MERCHANTS AND BUSINESSES IMPROVE PRODUCTIVITY, SERVE CUSTOMERS BETTER AND COMPETE WITH CONFIDENCE.

JIO CREATORIQ

POSITION AROUND CREATION + REWARDS

- RUN FESTIVAL-BASED CREATOR CHALLENGES WHERE CREATORS USE JIO CREATORIQ TO CREATE CONTENT AND PUBLISH THEIR RESULTS.
- REWARD HIGH-QUALITY OR INNOVATIVE USE CASES WITH PRIZES, VISIBILITY OR CREATOR OPPORTUNITIES.
- EXPLORE PARTNERSHIPS WITH PLATFORMS SUCH AS META AND GOOGLE FOR CREATOR ECOSYSTEM INTEGRATIONS.

KEEP THE META/GOOGLE PARTNERSHIP AS A PROPOSED PARTNERSHIP, NOT AN EXISTING CREATORIQ PARTNERSHIP.

5. BUILD AI LITERACY — ESPECIALLY IN RURAL INDIA

- **TEACH THROUGH USE, NOT THEORY:** CONDUCT LOCAL DEMONSTRATIONS SHOWING SIMPLE USE CASES SUCH AS “ASK JIO IQ ABOUT TODAY'S WEATHER” OR “SHOW ME HOW TO CHECK MY CROP PROBLEM.”
- **USE JIO'S PHYSICAL AND DIGITAL REACH:** TRAIN LOCAL JIO RETAILERS, COMMUNITY WORKERS AND FIELD PARTNERS TO DEMONSTRATE JIO IQ AND HELP FIRST-TIME USERS.
- **VOICE-FIRST ONBOARDING:** LET USERS LEARN BY **SPEAKING IN THEIR REGIONAL LANGUAGE**, RATHER THAN READING INSTRUCTIONS OR LEARNING PROMPT ENGINEERING.
- **CREATE “AI SAKHI / AI MITRA” STYLE LOCAL AMBASSADORS:** TRUSTED LOCAL PEOPLE CAN DEMONSTRATE THE PRODUCT AND HELP USERS OVERCOME THEIR FIRST-USE HESITATION.

* JIO IQ — REVENUE MODEL & COST STRUCTURE

1. COST STRUCTURE — WHAT JIO HAS TO INVEST IN

A. AI INFRASTRUCTURE

- GPU COMPUTE & AI DATA CENTERS FOR MODEL TRAINING AND INFERENCE.
- POWER, COOLING, NETWORKING AND STORAGE TO OPERATE AI AT SCALE.
- MODEL/API INFRASTRUCTURE FOR VOICE, IMAGE, LANGUAGE AND AI AGENTS.

RELIANCE HAS IDENTIFIED THE SCARCITY AND HIGH COST OF COMPUTE AS A MAJOR AI CHALLENGE AND IS BUILDING A SOVEREIGN AI BACKBONE IN JAMNAGAR, WITH THE FIRST 120 MW PLANNED FOR COMMISSIONING BY END-2026.

B. PRODUCT & OPERATIONS

- AI MODEL DEVELOPMENT AND FINE-TUNING
- REGIONAL-LANGUAGE DATASETS AND EVALUATION
- CYBERSECURITY, PRIVACY AND GOVERNANCE
- PRODUCT DEVELOPMENT AND CUSTOMER SUPPORT
- MARKETING AND USER ACQUISITION

2. REVENUE STREAMS — HOW JIO IQ EARNS

- **CONSUMER PREMIUM**
KEEP BASIC JIO IQ FREE TO DRIVE ADOPTION, WHILE CHARGING FOR ADVANCED AI MODELS, HIGHER USAGE LIMITS, PREMIUM AGENTS AND SPECIALIZED CAPABILITIES.
- **JIO PLAN BUNDLING**
BUNDLE JIO IQ WITH SELECTED MOBILE, BROADBAND AND DEVICE PLANS, INCREASING THE VALUE OF JIO'S EXISTING SERVICES WHILE CREATING AN INDIRECT AI REVENUE STREAM.

- **BUSINESS & ENTERPRISE AI**
MONETIZE JIO WORKIQ AND AI VYAPAR THROUGH BUSINESS SUBSCRIPTIONS, ENTERPRISE AI AGENTS, WORKFLOW AUTOMATION AND API ACCESS.
- **JioCloud / AI COMPUTE**
USE JIO'S EXISTING **JioCloud GPU INFRASTRUCTURE** NOT ONLY TO POWER JIO IQ, BUT ALSO SELL COMPUTING CAPACITY TO BUSINESSES, STARTUPS AND DEVELOPERS THAT NEED AI/ML INFRASTRUCTURE. JIO ALREADY OFFERS GPU-AS-A-SERVICE WITH FLEXIBLE SUBSCRIPTION AND PAY-AS-YOU-GO MODELS.
- **TRANSACTIONS & PARTNERSHIPS**
AS JIO IQ DEVELOPS THE ABILITY TO HELP USERS COMPLETE TRANSACTIONS, JIO COULD POTENTIALLY EARN PARTNER OR TRANSACTION FEES FROM SERVICES SUCH AS COMMERCE, TRAVEL AND HEALTHCARE.

* Jio IQ — PROPOSED PRICING

PROPOSED PRICING

TIER	PRICE	PURPOSE
Jio IQ FREE	₹0	MASS ADOPTION AND AI LITERACY
Jio IQ Pro	₹399/MONTH	ADVANCED USERS AND HIGHER USAGE
Jio IQ Pro ANNUAL	₹3,999/YEAR	RETENTION + ~17% SAVING VS MONTHLY
Jio IQ BUSINESS	₹999+/USER/MONTH	BUSINESSES AND PROFESSIONALS
ENTERPRISE	CUSTOM	LARGE ORGANIZATIONS + PRIVATE AI

THE STRONGEST JUSTIFICATION OF THIS PRICING IS COMPETITOR BENCHMARKING + JIO'S MASS-ADOPTION STRATEGY.

As of 2026:

- CHATGPT Go is ₹399/MONTH IN INDIA, INCLUDING GST. IT PROVIDES EXPANDED ACCESS TO MESSAGES, FILE UPLOADS, IMAGE GENERATION, DATA ANALYSIS AND MEMORY.
- GOOGLE AI PLUS IS ALSO ₹399/MONTH IN INDIA, WITH INCREASED GEMINI ACCESS, IMAGE/VIDEO GENERATION, NOTEBOOKLM AND 200 GB STORAGE. GOOGLE LAUNCHED IT SPECIFICALLY AS A MORE ACCESSIBLE AI SUBSCRIPTION.
- PERPLEXITY PRO IS POSITIONED INTERNATIONALLY AT \$20/MONTH, SO IT IS A SUBSTANTIALLY MORE PREMIUM PRODUCT CATEGORY. THEREFORE, ₹399 IS A MARKET-ANCHORED PRICE POINT, NOT AN ARBITRARY NUMBER.

BUT THERE IS A SECOND JUSTIFICATION SPECIFICALLY FOR JIO

JIO IQ STRATEGY IS DIFFERENT FROM CHATGPT/GOOGLE.

JIO'S OBJECTIVE = **MASS ADOPTION ACROSS INDIA**. AND IN THE MARKET LIKE INDIA YOU CAN NOT CHARGE HIGH FOR THE MASS ADOPTION.

ALSO, IN THE PRICING THERE SHOULD SOME STUDENT DISCOUNT SO THAT STUDENTS CAN GRAB THE OPPORTUNITY.

* CONCLUSION ASK | LEARN | CREATE | GROW

Jio IQ — FROM AI ACCESS TO AI FOR EVERY INDIAN

INDIA IS ENTERING A NEW PHASE OF AI ADOPTION, BUT THE NEXT CHALLENGE IS NOT SIMPLY MAKING AI AVAILABLE — IT IS MAKING AI EASY, RELEVANT, TRUSTED AND USEFUL FOR EVERYDAY LIFE.

JIO HAS THE OPPORTUNITY TO BUILD ON ITS CONNECTIVITY, DIGITAL ECOSYSTEM AND AI INFRASTRUCTURE TO CREATE JIO IQ — A STANDALONE, INDIA-FIRST AI PLATFORM CONNECTING SPECIALIZED EXPERIENCES ACROSS EVERYDAY LIFE, EDUCATION, HEALTHCARE, AGRICULTURE, BUSINESS, WORK AND CREATION.

THE STRATEGY IS TO REDUCE THE BARRIER BETWEEN WHAT USERS WANT AND WHAT AI CAN DELIVER: USERS SHOULD NOT HAVE TO LEARN HOW TO TALK TO AI; AI SHOULD LEARN HOW TO UNDERSTAND THEM.

WITH MASS-MARKET DISTRIBUTION, REGIONAL-LANGUAGE EXPERIENCES, SEGMENT-SPECIFIC ADOPTION STRATEGIES AND A SUSTAINABLE MODEL COMBINING CONSUMER, BUSINESS AND AI-COMPUTE REVENUES, JIO IQ CAN EVOLVE FROM AN AI APPLICATION INTO A BROADER PLATFORM FOR INDIA'S AI ECOSYSTEM.

“DON'T TEACH INDIANS HOW TO USE AI. TEACH AI HOW TO UNDERSTAND INDIA.”
